

Build Your Own Wings

- Print out back plate (below) and wing templates. Use heavy cardstock if available.
- Color back plate and both wings, then cut them out.
- Punch holes in the circles on the back plate.
- Glue wings to the back plate where indicated.
- Loop yarn through holes and around arms. Tie to hold wings in place.
- Use your wings to “fly!” What kind of bird are you? Where do you live? What sounds do you make?
