

BUILD YOUR OWN WINGS

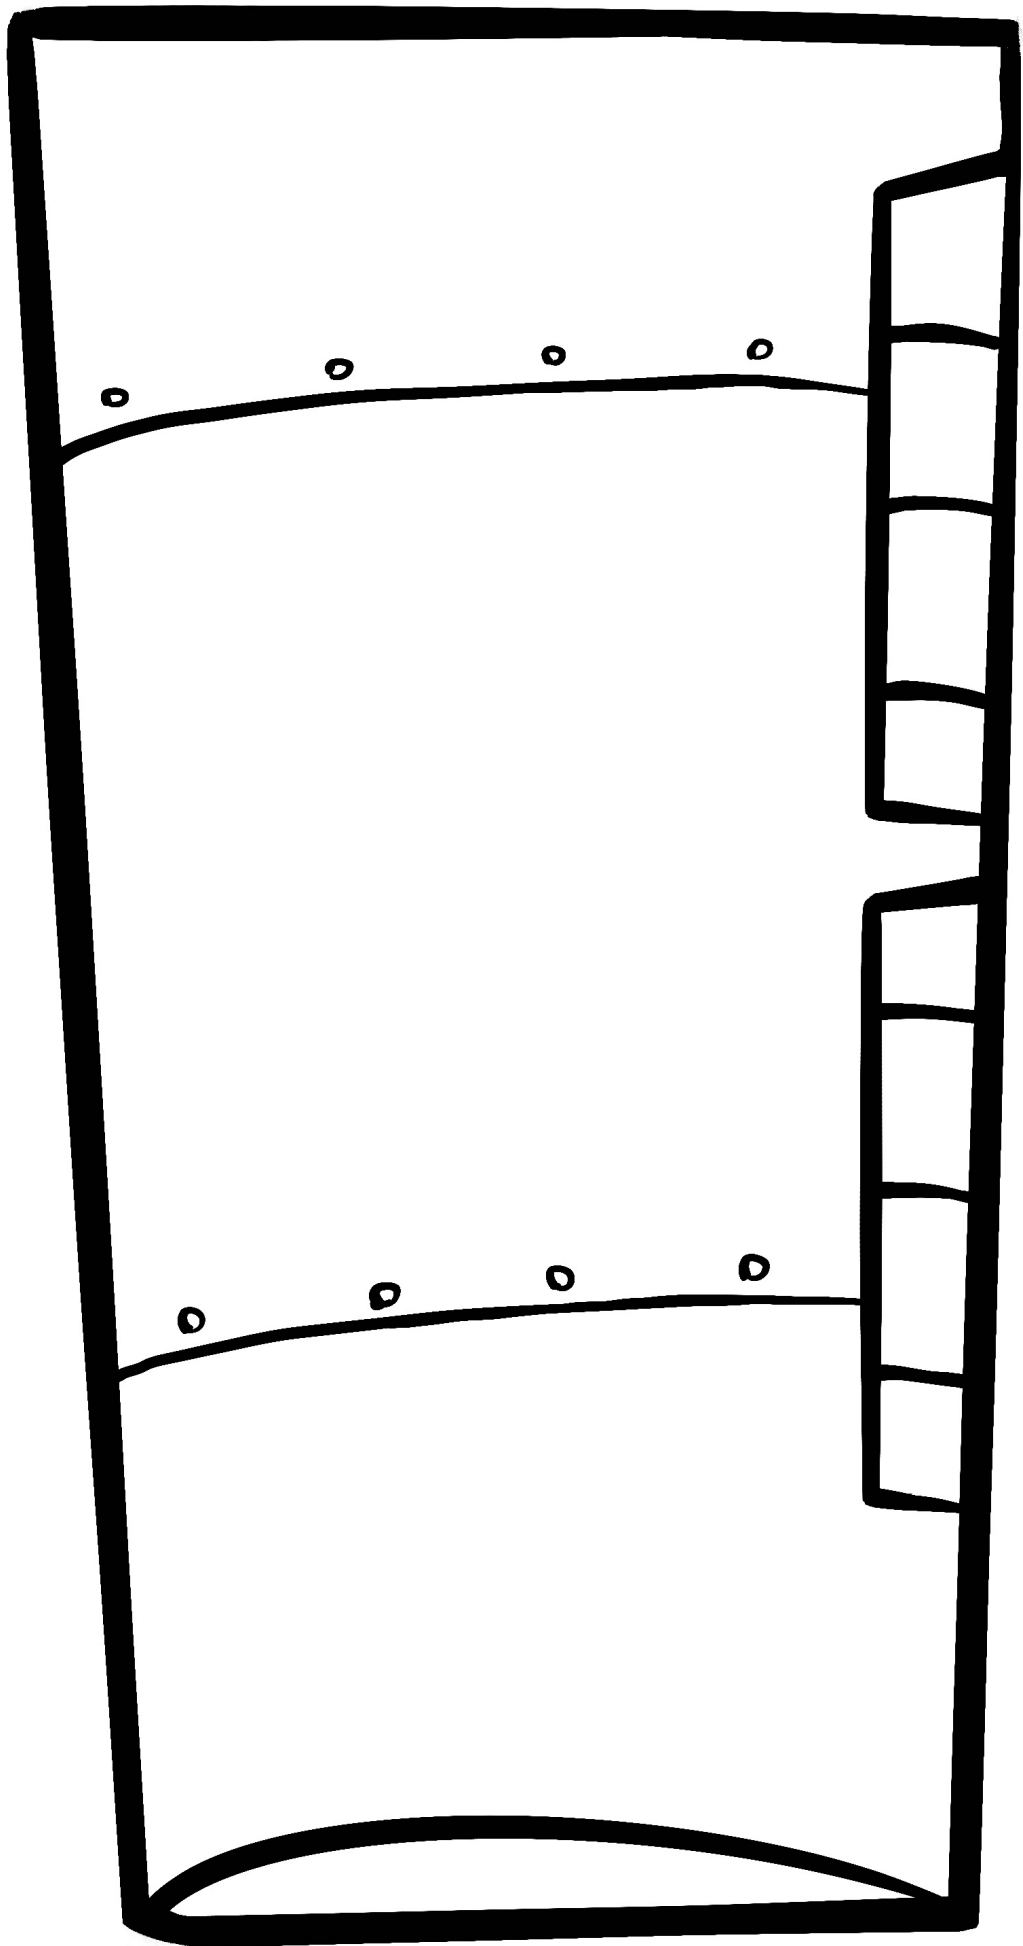

Create and design your very own Littlest Airplane wings!

Materials

- scissors
- glue or glue sticks
- hole punch
- colored pencils, crayons, or markers
- yarn

1. Print back plate and wing templates. Use heavier paper or cardstock if available.
2. Color both wings and the back plate, then cut them out.
2. Punch holes in the circles on the back plate.
3. Glue wings to the back plate as shown.
4. Loop yarn through holes and under/around arms to hold wings in place.
5. Enjoy your 'flight'!
